Traditional & timeless

Our new Flush Finish Casement Windows are carefully crafted to replicate the authentic flush finish associated with historic timber windows but expertly manufactured in fully-foiled PVC-U, to be stronger, longer-lasting and easier to maintain.

The traditional design includes a flush finish exterior and beautiful sculptured interior details which look equally stunning on both older and more contemporary properties.

The historically inspired style is complemented by exceptional levels of modern day performance. Available in a choice of double or triple glazing, these windows achieve the highest levels of energy efficiency, ensuring your home stays warm, your heating bills are reduced, and any unwanted noise is kept firmly outside. They also achieve the UK police initiative

‘Secured by Design’ standard to help ‘design out crime’ and give you extra peace of mind.

With a variety of colours, woodgrain finishes and decorative furniture to choose from we can help you create the look you are aspiring to achieve. And as with all our products, they will be individually made according to your exact measurements, manufactured in the UK by our team of skilled craftsman and fitted by our team of installation specialists.

Available in **double & triple glazing**

Flush Finish PVC-U Windows
