Anglian Home Improvements policy is one of continued
development and in accordance with this, we reserve
the right to amend specification of our products as their
development dictates.

hello

*The Nest Hello video doorbell.
A smart way to make your house
an Anglian home*

nest

Know who's knocking.

Welcome to the Nest Hello doorbell in a new partnership with Anglian. It not only compliments beautifully our great door range, but also combines the convenience and security of a video doorbell with the image quality and intelligence of a Nest Cam.

Designed for your front door, it delivers HD video and bright, crisp images, even at night. It's able to show you everything on your doorstep because the camera captures a bigger picture; people from head to toe or parcels on the ground, in crystal clear detail. And Nest Hello can tell the difference between a person and a thing, then send an alert so your Anglian home is even more safe and secure.

Nest Hello also lets you hear everything loud and clear thanks to HD Talk and Listen. And with 24/7 streaming, you can check in at any time. Or go back and look at a 3-hour snapshot history to see what's happened.

A Nest Aware subscription adds familiar face alerts so your Nest Hello can send an alert when there's a family member, a neighbour or a stranger at the door. So you'll always know who's knocking.

Nest Hello features and benefits

An HD camera for your front door.

With a 2K image sensor at a 4:3 aspect ratio, a 160° field of view and HD video, you can see your visitors head to toe when they ring the bell. High-dynamic-range (HDR) imaging lets you see key details, even in uneven light, while night vision powered by IR LEDs lets you see when it's dark.

Say hello even when you can't.

Have a natural conversation using HD Talk + Listen. Echo and ambient noise cancellation make sure you hear your guests clearly, even on noisy streets. And if you are not available to talk, choose from a list of pre-recorded responses, such as "Just a moment, we'll be right there!" or "You can leave it, thanks!", to quickly and effortlessly answer visitors from the Nest App.

Smart and thoughtful.

A light ring will show your guests the button. And Quiet Time lets you turn off your chime from the Nest App, while still receiving notifications. So you don't wake up the baby or set off the dogs.

Never miss a moment.

With 24/7 video streaming, you can check what's happening at the front door anytime from your smartphone, tablet or even your TV*, or check the free 3-hour history using Sightline in the Nest App to quickly find snapshots of important moments. And with Person Alerts built-in, you'll get a specific alert and snapshot when someone is at your door.

Integrate with Google Assistant.*

Nest Hello can even announce that there's someone at your door as it can integrate perfectly with the Google Assistant.

Professionally installed.

Your installation is provided through Anglian's partnership with HomeServe. Fully trained installers will be able to wire-up your Nest Hello video doorbell to your home in no time at all. And will also provide a demo of the Nest App, so you're all ready to go.

Nest Hello technical requirements

- Wired doorbell** An existing wired doorbell is preferred but we can hard-wire your installation if required.
- Door chime** A door chime is required; any type of door or wall mounted chime box is OK.
- Power supply** Nest Hello needs a permanent power supply of 16-24V via an AC transformer.
- Wi-Fi in-place** Video streaming and video recording require a working Wi-Fi connection. The strength of your Wi-Fi will be validated by your Anglian Salesperson.
- Broadband in-place** A working broadband internet connection with at least 2 Mbps upload speed is required.
- App access** You will need the free Nest App loaded onto a compatible smartphone or tablet along with Bluetooth 4.0.

Nest packages available from Anglian.

- Nest Hello Doorbell only.
- Nest Hello Doorbell with a Google Home Mini.

*Requires additional hardware.
